

III Latin American Biobed Workshop

12-14 September 2017

Embrapa Uva e Vinho, Bento Gonçalves, RS, Brazil

First Call

Objective:

To bring together researchers, experts and stakeholders interested in the development of the biobed and other biopurification systems designed to minimize pesticide pollution.

Topics:

- Biological processes in the biobed
- Biomixture optimization
- Biobeds for degradation of compounds other than pesticides
- Water management in biobeds
- Adoption of biobeds by the farmers
- Biobeds: regulatory, normative and certification aspects
- Dissemination and implementation campaigns

Presentations:

Please send an abstract with no more than 300 words, Times New Roman, 12 p. before June 15 to luciano.gebler@embrapa.br

Oral presentations will be 20 min long + 10 min for discussion, preferably in English.

More details about registration, accommodation and transportation will be sent in the next newsletter.
